Changing Collaborate Proxy Settings

- Go to Collaborate and click on **Edit**
- Click **Preferences**
- Scroll to **Proxy Settings**
- In method, select **Proxy Settings From Launcher (direct)**

Note that there are three proxy settings that may work, Proxy Settings From Launcher (direct), Direct Connection and HTTP Direct. Try all three, at least one should work.

- Click **Apply**
- Click on **Help** (top menu)
- Click on **Join Session**
